

Print Image Claim Editor vs. NET Correct Claim Editor **NetCor**

The **NET Correct** Claim Editor and the **Print Image Claim Editor** can not be used to edit the same claim. If a claim is edited online using the [Print Image Claim Editor](#), each new version of the claim after that which is rejected, re-edited online and resubmitted online will have to be edited using the Print Image Claim Editor. The [NET Correct](#) editor will not be available for use on claims that were originally edited using the Print Image Editor. The same is true if the claim is first edited in NET Correct. All future versions of the claim will then need to be edited in NET Correct and the Print Image Editor will not be available for editing a new version of the same claim.

However, this will not apply to claims that are re-transmitted to [Infinedi](#) from your Practice Management software. If you elect to re-transmit your claim rather than correct it online, this will reset your options to use either editor. Likewise, you will need to commit to using one editor or the other for editing this new claim.

Claim Processing Control

PATIENT NAME : ABSHIRE, GERARDO PAYER : AETNA
ACCOUNT NUMBER : 64246 CLAIM TYPE : Aetna
FIRST DATE OF SERVICE : 2009-08-02 AMOUNT : 80.00

RECEIVED DATE	STATUS	VIEW/EDIT	View this Batch
08/02/2009	Accepted	View / Edit View / Edit ! NEW	View this Batch

The NET Correct Claim Editor is currently only available to providers that are sending ANSI 837P Format until a future release of VIC. Providers sending claims in print image will continue using the Print Image Editor and will see the following **message** when attempting to edit a claim.

...Of....

Providers sending in ANSI 837P Format that can access the Print Image Editor and NET Correct and are attempting to edit a claim that has already been edited in the Print Image Editor will see the following **message**.

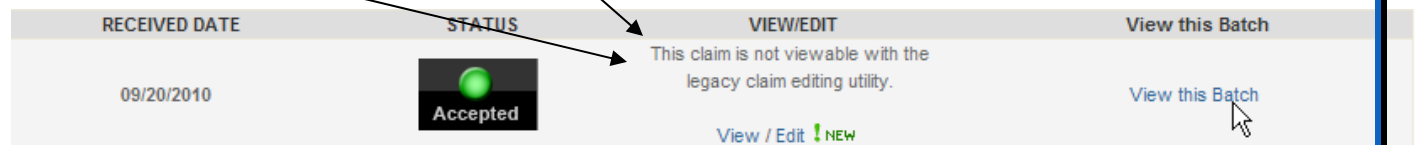

The screenshot shows a table with four columns: RECEIVED DATE, STATUS, VIEW/EDIT, and View this Batch. The first row contains the date 09/23/2010, a green 'Accepted' status icon, and a message: 'This claim is not yet viewable with the new NET Correct tool.' Below the message is a cursor. The 'VIEW/EDIT' column has a 'View / Edit' link, and the 'View this Batch' column has a 'View this Batch' link.

RECEIVED DATE	STATUS	VIEW/EDIT	View this Batch
09/23/2010		This claim is not yet viewable with the new NET Correct tool. View / Edit	View this Batch

Providers submitting claims in ANSI 837P Format that can access the NET Correct Claim Editor **only** will see the following **message** when attempting to edit a claim.

...Of...

Providers sending in ANSI 837P Format that can access the Print Image Editor and NET Correct and are attempting to edit a claim that has already been edited in the NET Correct Claim Editor will see the following **message**.

The screenshot shows a table with four columns: RECEIVED DATE, STATUS, VIEW/EDIT, and View this Batch. The first row contains the date 09/20/2010, a green 'Accepted' status icon, and a message: 'This claim is not viewable with the legacy claim editing utility.' Below the message is a cursor. The 'VIEW/EDIT' column has a 'View / Edit !NEW' link, and the 'View this Batch' column has a 'View this Batch' link.
